PROFESSIONAL SUMMARY

Creative and results-driven **Graphic Designer and Front-End Web Developer** with a strong ability to combine visual creativity with technical expertise to build engaging and professional digital experiences. Experienced in designing modern graphics, branding materials, social media content, UI designs, and responsive websites with a focus on clean layouts, usability, and visual consistency. Skilled at understanding client requirements and transforming ideas into attractive, functional, and user-friendly designs and web interfaces.

Passionate about learning new technologies, design trends, and development techniques to continuously improve professional skills. Detail-oriented, organized, and committed to delivering high-quality work within deadlines. Able to work independently as well as collaborate effectively with teams, while maintaining a strong focus on creativity, problem-solving, and client satisfaction.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3
Frontend	React.js, React Native, Tailwind CSS
Backend	Node.js
AI / ML	TensorFlow, OpenAI API, CNN, Transformer
Tools & DevOps	Git, GitHub, Figma, Vercel, Adobe Photoshop, Adobe Illustrator, Canva.

EXPERIENCE

Front-End- Developer Jan 2026 –Aug 2026
HZS Media

- Developed responsive and high-performance web applications using React.js, Next.js, JavaScript, and Tailwind CSS, improving user experience across desktop and mobile devices.
- Converted Figma and Adobe XD designs into pixel-perfect, mobile-first interfaces while maintaining clean, reusable, and scalable code.
- Converted Figma and Adobe XD designs into pixel-perfect, mobile-first interfaces while maintaining clean, reusable, and scalable code.
- Managed source code with Git and GitHub, deployed projects on Vercel, and resolved UI bugs to ensure reliable and consistent application performance.

Frontend Developer Jun 2025 –Dec2025
Freelancing *Remote*

- Built responsive business websites and landing pages for international clients using React.js, JavaScript, HTML, CSS, and Bootstrap.
- Developed reusable UI components and optimized website performance, resulting in faster page loads and improved user experience.
- Collaborated directly with clients to gather requirements, implement revisions, and deliver projects within agreed timelines while maintaining high-quality standards.
- Integrated third-party APIs, contact forms, and interactive features to create modern, scalable, and user-friendly web applications

Graphic Designer May 2024 – Apr 2025
Independent (Freelancing) *Remote*

- Designed professional marketing materials, social media creatives, logos, and branding assets using Adobe Illustrator, Photoshop, and Canva for clients across multiple industries.
- Created vector illustrations, flat icons, banners, and promotional graphics with a strong focus on visual consistency and brand identity.
- Worked closely with international clients to understand project requirements, deliver creative solutions, and maintain high client satisfaction.

PROJECTS

Kidney Stone detection Using Deep Learning
Deep Learning API, TensorFlow, Stream Lit

| *Machine Learning, CNN, Transformers, Kaggle Dataset*

2025

- Developed an AI-powered kidney stone detection and segmentation system using CNN and Transformer-based deep learning models for accurate medical image analysis.
- Trained and evaluated the model on a Kaggle dataset, achieving high segmentation accuracy while optimizing preprocessing and inference performance.
- Built an interactive Streamlit web application that allows users to upload CT scan images and receive real-time kidney stone detection results with visualization.

Qasim Glass Interior

| *HTML5, CSS, JavaScript*

2026

- Designed and developed a modern, fully responsive business website showcasing interior design, glass solutions, and company services with a clean user interface.
- Implemented interactive sections, smooth animations, image galleries, and contact forms to improve user engagement and provide a professional browsing experience.
- Optimized website performance, mobile responsiveness, and SEO fundamentals while deploying the project with a custom domain for production use.

HZS Media

| *HTML5, CSS, JavaScript*

2026

- Developed and maintained the company's official website with responsive layouts, modern UI components, and optimized performance across desktop and mobile devices.
- Built reusable front-end components, integrated contact forms, and enhanced navigation to improve usability and strengthen the company's online presence.
